OUR CAUSE

Guelph General Hospital has been providing quality, patient-centred care to our community for more than 130 years.

This year, proceeds from Black Tie Bingo will go towards our most urgent need right now – the purchase of 45 multifunction cardiac/critical care monitors for areas that care for our very sickest and most vulnerable patients. These are priority pieces of equipment that our Hospital and our patients, can't afford to live without.

For heart attacks, car accidents, serious injury, chronic lung problems—even major surgeries—there is no single piece of hospital equipment that we rely on more than the cardiac/critical care monitor, particularly as our Hospital has been designated as the vascular care centre for the region.

This vital equipment helps in the diagnosis and treatment of patients so they can get back on their feet and into the arms of their loved ones at home.

Raffle Licence #3735

Guelph General Hospital has depended on the support of our community since its beginnings in 1875, and it still does. Community support is vital. Ministry of Health and Long-Term Care funding does not cover all capital costs. Over the last two years, one in two dollars the Hospital spent on equipment came from donors, through the Foundation.
